

## RENATO ROTA – Politecnico di Milano

Renato Rota is full professor at Politecnico di Milano since 2002, where he was responsible for the PhD program in Industrial chemistry and Chemical engineering from 2005 to 2010 and Head of the Dpt. of Chemistry, Materials and Chemical engineering “G. Natta” from 2011 to 2012; he was a member of the Academic Senate from 2011 to 2019 and Rector’s delegate for the Research infrastructures since 2016. He carried out his research activities in various fields, such as separation processes, combustion, chemical kinetics, industrial safety and environmental pollution. His scientific work is summarized in more than 100 publications in international journals.
