

FABIO DECATALDO – TechnipFMC

Fabio Decataldo – VP Global Account Director

Master Degree in Aerospace Engineering at Politecnico in Milan, working in the Energy business since 25 yrs with different roles. I am based in Milan

Gathered experiences in management and leader of organizations to deliver aftermarket services in different companies, I re-entered the subsea arena with TechnipFMC in 2009 after experiences in other business segments in downstream and products (reciprocating pumps, roll grinders and industrial mixers). The Global Account role I play has expanded in parallel with TechnipFMC business growth to cover the entire Subsea offering including hardware and installation capabilities.
