CRISTIAN SCAINI - Saipem

Sustainable Infrastructures and Energy Manager

Based in Milan, Cristian currently brings new digital solutions to large transport infrastructures, as well as being Saipem's Energy Manager. He joined Saipem in 1997, managing innovation and technology investment projects for the installation of large subsea pipelines, the development of O&G subsea fields, the construction of new ships and for underwater technologies. Subsequently he led the Offshore Technology Development and Intellectual Property offices, the management of the Offshore Innovation Projects Portfolio at Corporate and Divisional level and the coordination of Open Innovation. Most recently he held the position of Head of Offshore New Energies Business Development Enablers, before moving to the Sustainable Infrastructures Business Line. Cristian holds a Master in Aeronautical Engineering from the Politecnico di Milano and an MBA from Bocconi School of Management and MIP Graduate School of Business (Milan, IT).
